SELECTED CLIENTELE

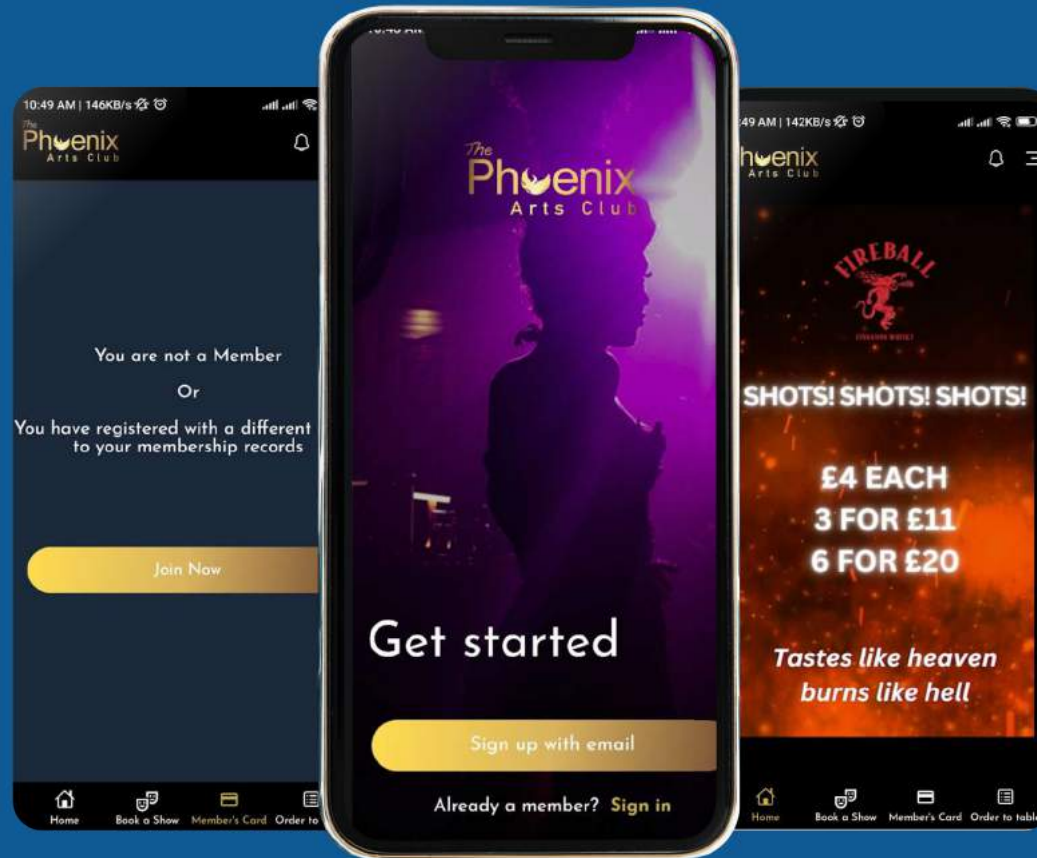

The image features a white background with abstract, flowing blue lines at the top and bottom. These lines are composed of many thin, overlapping curves that create a sense of movement and depth. The lines are a vibrant blue color and vary in opacity, with some areas appearing more solid and others more translucent.

CASE STUDY

Phoenixartsclub Application

| 15 weeks (75 Business Days) Engagement |

The Phoenix Arts Club in London, known in the showbiz world as 'that Soho bar', is widely popular among cabaret lovers. The club that features the best cabaret & variety from drag to musical theatre, burlesque to aerial, comedy, and more, contracted WebMobril Inc. to build an app offering its guests a user-friendly and 'on the go' booking option.

A LOOK INTO THE DEVELOPMENT PROCESS

Idea

User-Friendly

Responsive

Android/iOS

WebMobril built a progressive application for The Phoenix Arts Club using cutting-edge tools and technologies. We tailored the app, integrating custom features to help users browse and book shows, view membership cards, etc., along with a secure payment gateway.

KEY FEATURES

BOOK A SHOW

- The user can tap the booking icon on the home screen and select the show, timing, seating preference, and number of seats to proceed with the booking.

ORDER TO TABLE

- Users can access the menu to opt for food items and drinks they would want to be served on the table during the show.

VIRTUAL CARD

- An in-built virtual card feature is deployed for users that will be auto-generated with a QR code once the user fills the template with the required details.

Yarn Distribution Management

| 13 Weeks (65 Business Days) Engagement |

YARN-MARKET.COM Ltd. is an online marketplace offering an extensive selection of yarns, sewing and industrial threads, hand-knitting tools, and a diverse range of sewing and hobby accessories. The customer from Bulgaria trusted WebMobril Inc. to develop a scalable, reliable, and dynamic web app that creates a positive first impression with the target audience.

PUTTING THE SOLID FOUNDATION OF THE APP

Idea

User-Friendly

Responsive

Data Security

The development process started only after a comprehensive investigation process where we collected all points vital for the client. Our seasoned techies combined their expertise to develop an engaging and smooth working web application fitted with the latest tech stack, optimizing the user experience.

KEY FEATURES

PRODUCT VIEWING

- A part of the seamless user experience, this section allows users to fetch information like name, colors, cost, quantity, etc., just by clicking on a product.

CART

- As an essential prerequisite, the cart functionality enables users to select multiple products, select the quantity, and add a virtual purchasing order.

SHIPPING

- A secure platform created to let users proceed with payment and get the shipping of the products to their chosen address.

ORDER MANAGEMENT

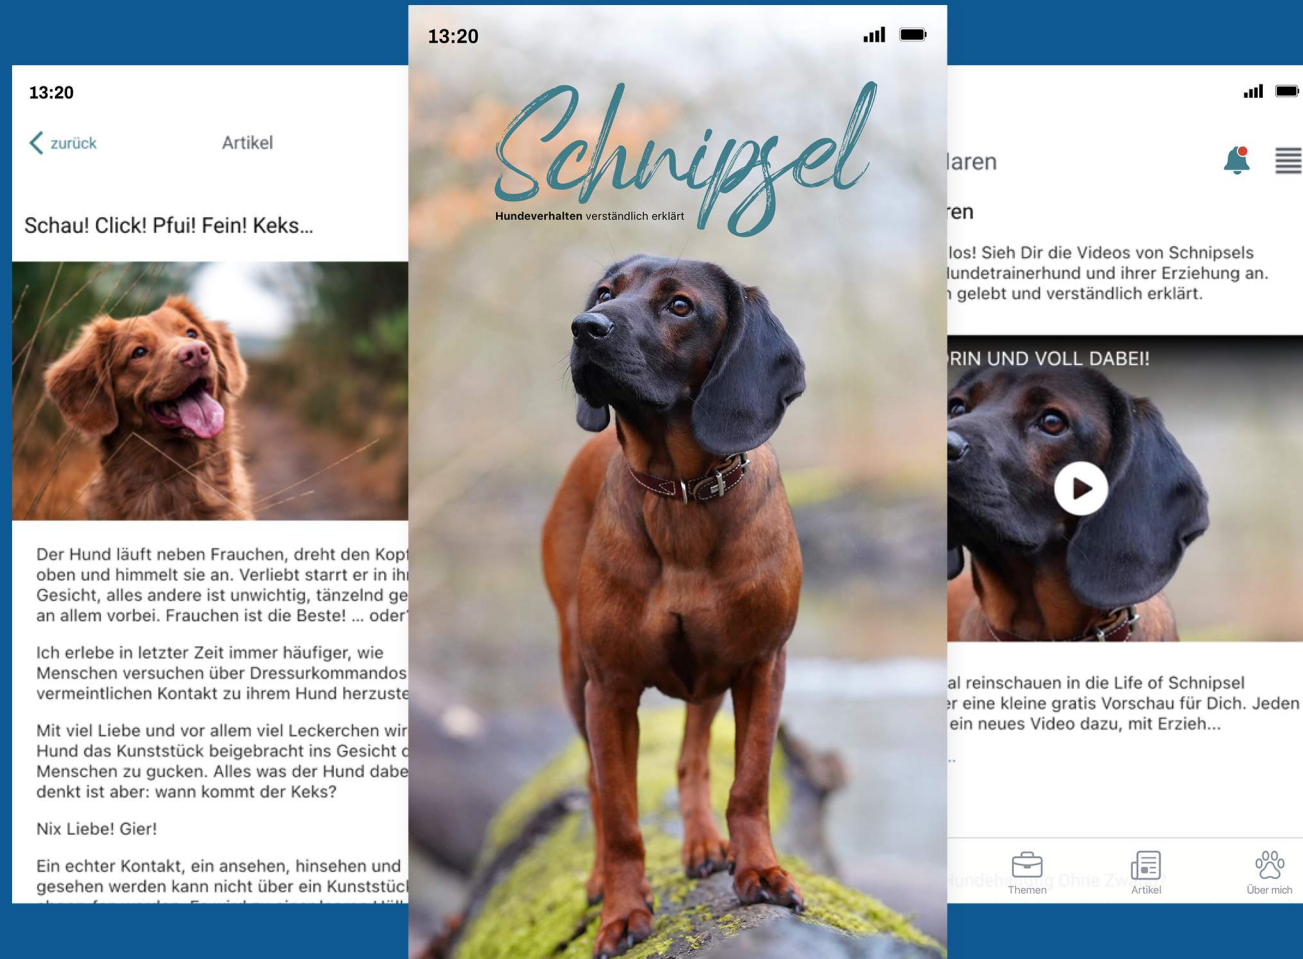

- A backend feature for admin to manage/add/view/delete the orders from the users (wholesale) and ship accordingly.

TECH STACK

Schnipsel- Dog Training

| 15 weeks (75 Days) Engagement |

A platform for all dog parents, Schnipsel is about professionally tailored training programs to teach people how to get back to a natural, authentic way of dealing with their dogs or puppies. The client approached WebMobril Inc. for the design and development of the app and website using robust backend expertise and proficiency in UI/UX.

CREATING STATE-OF-THE-ART APP & WEBSITE

Idea

User-Friendly

Responsive

Appealing app

Upon requirement gathering, WebMobril started with wireframing of the app and website, followed by designing to create the interface of the platforms. The backend development work continued simultaneously to integrate various features and functionality as per clientele demands.

KEY FEATURES

HOME SCREEN

- Welcome screen with a free dog training video and related articles to explain Dog behavior in an understandable way.

LISTED VIDEOS

- To help users watch videos of Schnipsel's life as a dog trainer and her upbringing in different video categories such as puppies, nutrition, and street dog observations.

NOTIFICATION

- Installed a notification section where users can check updates about new videos, subscription purchases/renewals, and more.

ADMIN PANEL

- To enable admin to perform CRUD operation and manage users, courses, and content of the application.
