# SELECTED CLIENTELE

The slide features a white background with decorative blue wavy lines at the top and bottom. These lines are composed of multiple overlapping, semi-transparent layers, creating a sense of depth and movement. The waves flow horizontally across the frame.

## **CASE STUDY**

# Alafia- Personal Health Tracker

| 23 weeks /115 Business Days Engagement |

An app for all health-conscious people, Alafia helps elevate the wellness journey by monitoring daily activities and comparing them with a healthy body. The customer with this idea approached WebMobril Inc. for the development of an app that features everything from motivational videos to tracking tools, necessary for overall wellness.

# WHAT SOLUTION WE OFFERED

Idea

User-Friendly

Responsive

Android/iOS

At WebMobril Inc., we empowered the idea and shaped it into a user-friendly, responsive app for both Android and iOS users. We designed Alafia with themed colors and brand attributes, ensuring the app components are attractive enough to draw maximum user engagement.

## KEY FEATURES

### FITNESS

- To enable tracking features users are required to set specific and measurable goals.

### WATER INTAKE

- The app algorithm allows users to keep a record of their water intake habits. So they can get body water percentage to check their hydration level.

### BMI

- To enable tracking features users are required to set specific and measurable goals.

### WOMEN

- A special menu for women users, allowing them to log their menstruation cycle & add details like age, disease, infection, BP, childbearing, etc. for a complete health check.

# Music Keeper

| 10 Business Weeks Engagement |

Music Keeper is a unique and ideal solution for artists struggling with the challenges of keeping repertoires and media files in order. The client brought a concept of the cloud platform to allow artists to store and organize their work and share it with other artists or students. Despite several complexities, our in-house techies built a flawless and highly secured cloud-based media storage and file-transferring website.

# WHAT SOLUTION WE OFFERED

Idea

User-Friendly

Responsive

Data Security

Creating a distinctively amazing platform After a meticulous development process, we successfully delivered a robust website with quality and data security as paramount concerns.

## KEY FEATURES

### ACCESS

- Users can get quick & easy access to creative media while enhancing and streamlining the preparation, inspiration & workflow.

### STORE

- Using this core functionality, users can store creative media, music projects, & materials in one place, in a more organized manner, making it convenient & efficient to access.

### SHARE

- It's a time-saving feature as users can share the lists or full projects with multiple users in the group through email to ensure everyone has access to the material for practice & performance.

### COLLABORATE

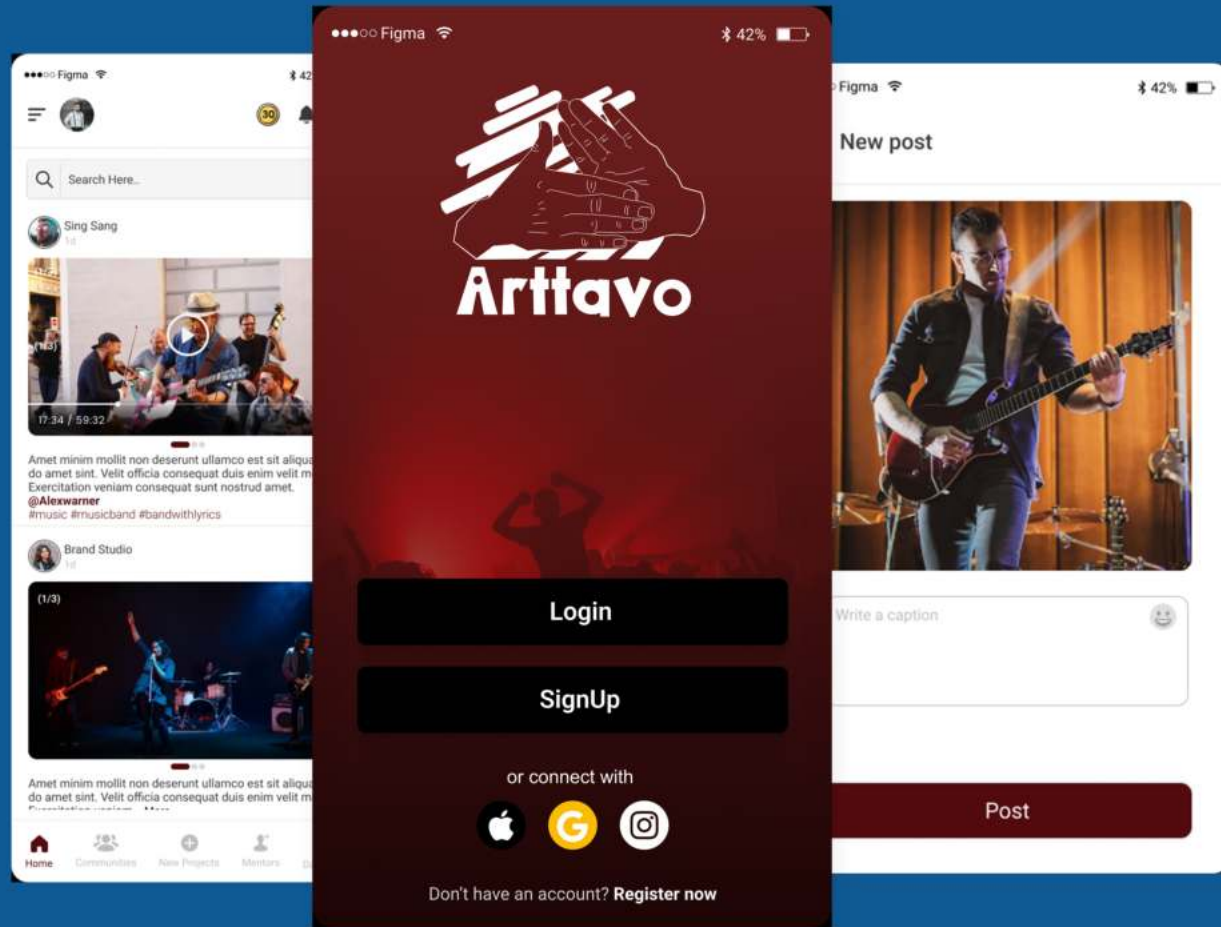

- Users can keep group members in the loop & on the same page by encouraging them to provide feedback & suggestions to each other, improving artists' workflow.

# Arttavo app and website

| 130 Business Days Engagement |

Arttavo is a community, collaboration, and storytelling platform, designed specifically for online creators. The client engaged WebMobril Inc. to create an app and website to encourage creators to connect with other online creators and mentors. The requirements included scalable design and a robust backend to help creators share their crafts and grow.

# ARTTAVO DEVELOPMENT STORY

Idea

User-Friendly

Responsive

Creators

Arttavo is a community, collaboration, and storytelling platform, designed specifically for online creators. The client engaged WebMobril Inc. to create an app and website to encourage creators to connect with other online creators and mentors. The requirements included scalable design and a robust backend to help creators share their crafts and grow.

## KEY FEATURES

### COMMUNITIES

- Users can sign up for communities, facilitating them to post music content, video blogs, or informative content under specified communities.

### EXPERTS

- It's a feature designed to work in two different ways—creators and mentors. While creators can use it to find and book a session with a mentor, mentors can sign up to manage their availability in the application.

### PAYMENTS

- A secure payment gateway integrated for users to make payments for the membership plan, using their credit or debit cards.

HYBRID PLATFORM

# Fitgolf- Fitness App

## | 65 Business Days Engagement |

A business concept introduced by FitGolf Franchises, LLC.- Fitgolf is an online learning platform designed to help golf players of all levels enhance their skills and elevate their performance on the golf course. The customer sought to develop a cutting-edge app to revolutionize golf training by leveraging digital technology. The project objectives included creating a user-friendly app that offers personalized exercise routines, tutorials, valuable tips, etc., for golfers.

# PROJECT APPROACH

Idea

User-Friendly

Responsive

Appealing app

We kicked off the project with a research-driven and collaborative approach, employing agile methodologies and user-centered design principles to create an intuitive and visually appealing mobile app for golf training.

## KEY FEATURES

### PERSONALIZED ROUTINES

- Fitgolf provides personalized exercise routines crafted by golf professionals and fitness experts tailored to different skill levels and individual goals.

### VIDEO TUTORIALS

- The app includes a library of high-quality video tutorials about golf pros that users can watch to grasp the nuances of the game.

### TIPS & INSIGHTS

- The app gives users access to an extensive collection of golf tips and insights for effective gaming from seasoned golfers and coaches.

### TRAINING PROGRESS TRACKING

- Users can keep track of their training progress with an intuitive tracking system integrated into the app.

# Evince App

For an idea of seamless group communication by Evince LLC, we created the Evince app for private and controlled team communications. The app is bundled with advanced features especially to cater to the needs of Sports Organizations, Clubs, Churches, Health Care Industries, and groups both large and small.

# A FEW AMAZING FEATURES OF THIS APP

## FOUR DIFFERENT USER GROUPS

- Get started with using the app by signing up as a team leader, team member, parent or fan/ friend.

## CREATE YOUR TEAM

- Only Team Leader can create a team in the app, while all users except the team leader, can request to be part of that team.

## LIVE STREAMING

- Use the 'Live Streaming' feature for easy and effective communication with the group, by simply tapping the strategically placed "go live" button.

## SEND ALERTS

- A quick way to pass on an important message, send alerts to the entire organization or individuals.

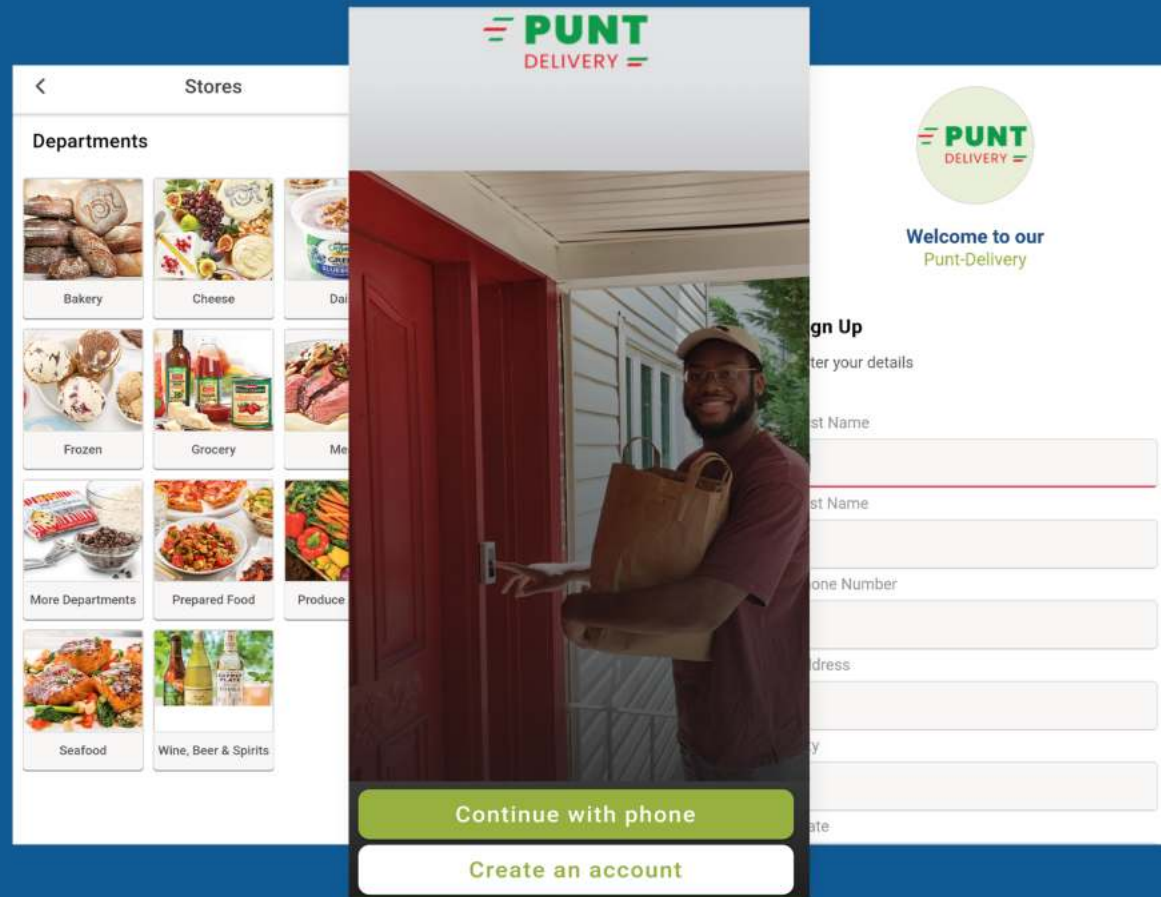

## CHAT

- Chat in a group or in private (one to one) with a team member based on specific requirements. However, all members of a team can chat with each other except Fan.

## RESULT

Evince is a cost-efficient team communication app for teams at the organizational level. We have built this app for both Android and iOS operating systems to make it extensively accessible. We integrated the app with a user-friendly interface and easy to use features to maximize its successful usability on a wide scale.

# Punt Delivery App

Need groceries delivered faster to your door? Get PUNT – Store2Door app that delivers groceries to your door, faster and more efficiently. Users can pick out the freshest products possible in the app uploaded by different vendors in the area. Simply fill your cart, check out by adding your shipping address and make payment using the credit card, check or cash and done. Your order will be delivered in just a few minutes. The subsidiary PUNT-Driver app helps delivery partners (drivers) to manage the orders and delivery.

# CASE STUDY

A user-friendly app for daily life, PUNT helps users buy groceries and get them delivered to their door in a quick time. The client requirements entailed three user panels in the app to fulfil its purpose, along with a supporting app for drivers to manage the deliveries. They assigned this job to WebMobril Technologies, and we efficiently completed the project keeping the client's requirements at the core. Our team designed a highly interactive app from scratch to offer the best user experience.

We have also developed its supporting PUNT Driver app for delivery partners that notifies the driver about a delivery request. The driver can locate the store, collect all the items and deliver them to the client using the app.

## AMAZING FEATURES OF PUNT APP

### USERS PANEL

- **Homepage:** Users can see the list of stores on the homepage with complete details. Click on any particular store and check all the listed products under different categories.

- **Checkout:** Buy your selected items in the cart by filling in the shipping address and making a payment through one of the payment options.

### SELLERS PANEL

- **Submit Listing:** Sellers can add their store to the listing and can add a category/sub-category to their particular product listing. They can submit the request for store listing for Admin's approval.

- **Order Management:** Sellers can add or manage the inventory along with information on items that are unavailable.

### ADMIN PANEL

- **User Management:** The admin can manage the users (buyers and sellers); they can view/delete/activate/deactivate any particular user.

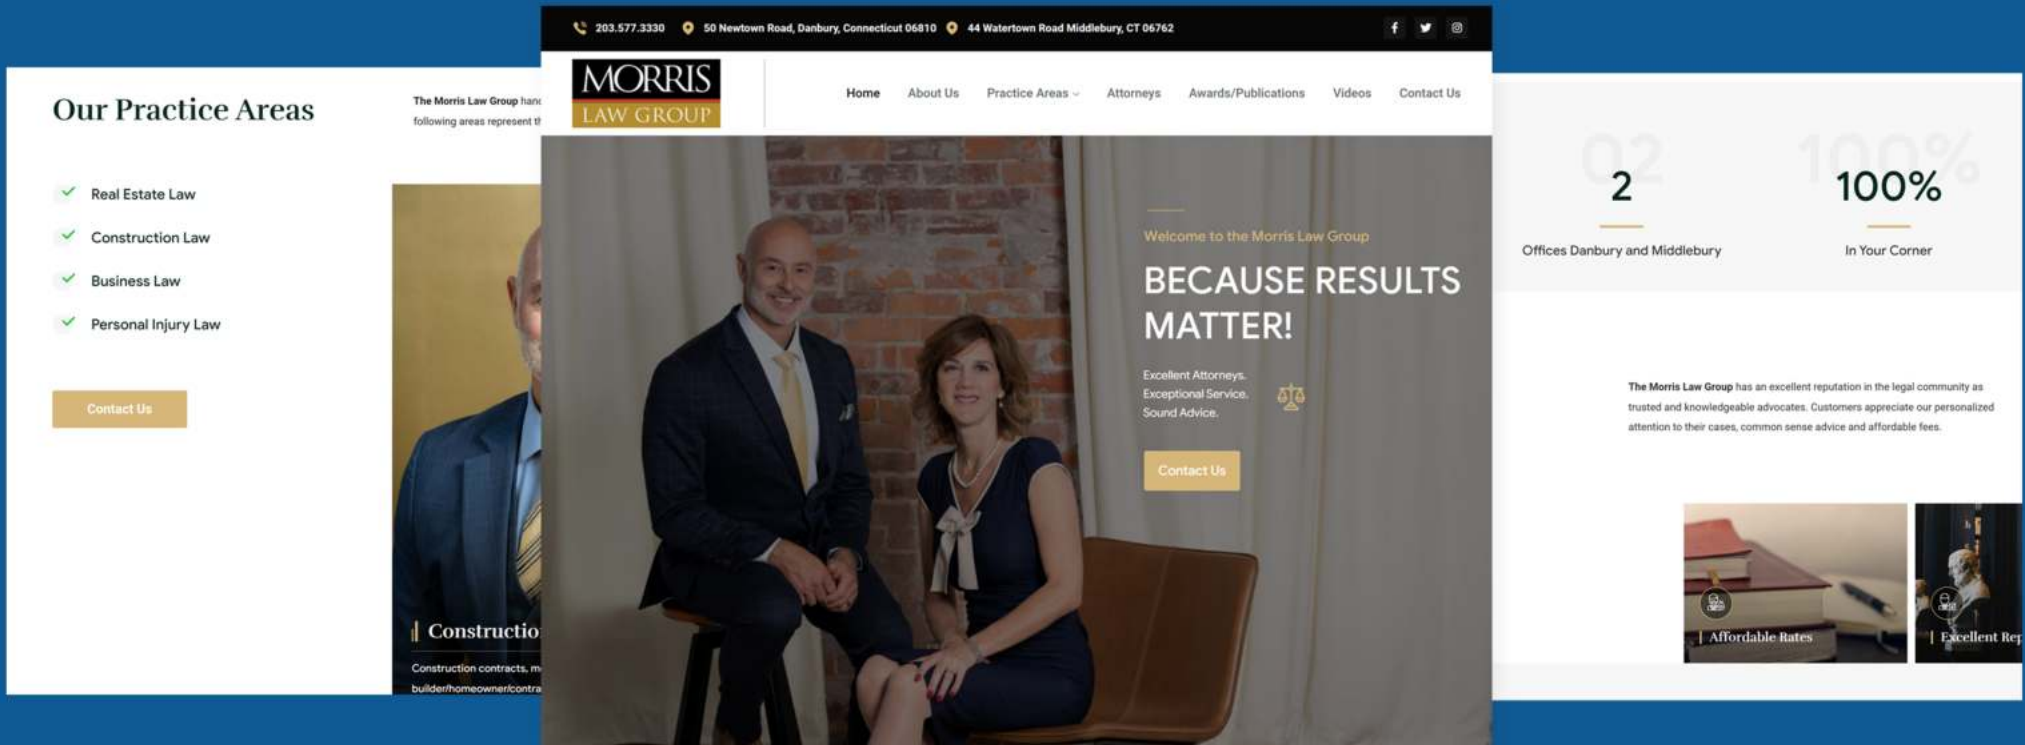

- **General Management:** This feature allows the admin to manage the payment, order, service fee and listings.

## RESULT

With a comprehensive list of products and user-friendly features, the Punt app is adding convenience to daily life. The UI/UX was the main consideration that our designers surpassed by providing brilliant designs. Both Android and iOS users are enjoying the benefits of fresh and fast delivery of groceries to their doorstep.

# Morris Law Firm Webiste

The Morris Law Group was established with a vision to provide individuals and small to medium-sized businesses the same high-quality legal representation typically available at large law firms. They offer quality legal advice and services for all, keeping prices more consistent, economical and as per the needs of smaller business owners and individuals.

# CASE STUDY

The Morris Law Group has an excellent reputation in the legal community for trusted and knowledgeable advocates. They wanted an informative website that people visit to learn about Morris Law Group. The law firm chose WebMobril Technologies for our vast experience in website development.

Our team created a robust website outfitted with details about publication and practice areas for users. It also enables a user to connect to the admin regarding the legal problem by simply filling up an online form.

## KEY FEATURES OF MORRIS LAW FIRM WEBSITE

### HOMEPAGE

- The homepage offers users the videos and images of the Morris Law Group along with information about the practice area. Users also get a 'Contact Us' form to raise consultation requests.

### PRACTICE AREAS

- Users can check the various practice areas that represent the primary focus and expertise of Morris Law Group. Each field provides detailed information that users can get by clicking the particular area.

### CONTACT US

- Users seeking legal advice or consultation can directly contact the Morris Law Group by filling out the form with details, including name, phone number, email address and query.

## RESULT

Our website design and development team used latest tools to design the extensive website for Morris Law Group. The website provides all the relevant information with smoother and quick navigation to different pages.

# Dr. Robert Sullivan Website

Dr. Robert Sullivan– an emerging thought leader in politics and urban studies. He currently serves as Dean of the College of Humanities & Social Sciences at Dallas Baptist University. He is well-known for his research work and several writings that mainly focus on innovative leadership, federalism, municipal government, etc. The client wanted to make Dr. Robert's research work and resources available to a larger audience through a well-designed and engaging website.

The client engaged WebMobril Technologies for re-designing and re-development of Dr. Rob website. Our team took it forward to create a website where users can read about Dr. Robert Sullivan, download eBooks, and play and download podcast episodes.

# A FEW GREAT FEATURES YOU CAN EXPERIENCE

## HOMEPAGE

- Aesthetically designed homepage with easy and intuitive features to help users stay on the website and easily get the required information. Users can smoothly scroll down to read about Dr. Robert Sullivan. Moreover, the header menu gives effortless access to offered products and services.

## PRODUCT & PDF

- Webpage redirected from homepage menu, where users can access books listing, with options of Free Download and Buying a Book.

## PODCASTS

- A quick way to pass on an important message, send alerts to the entire organization or individuals.

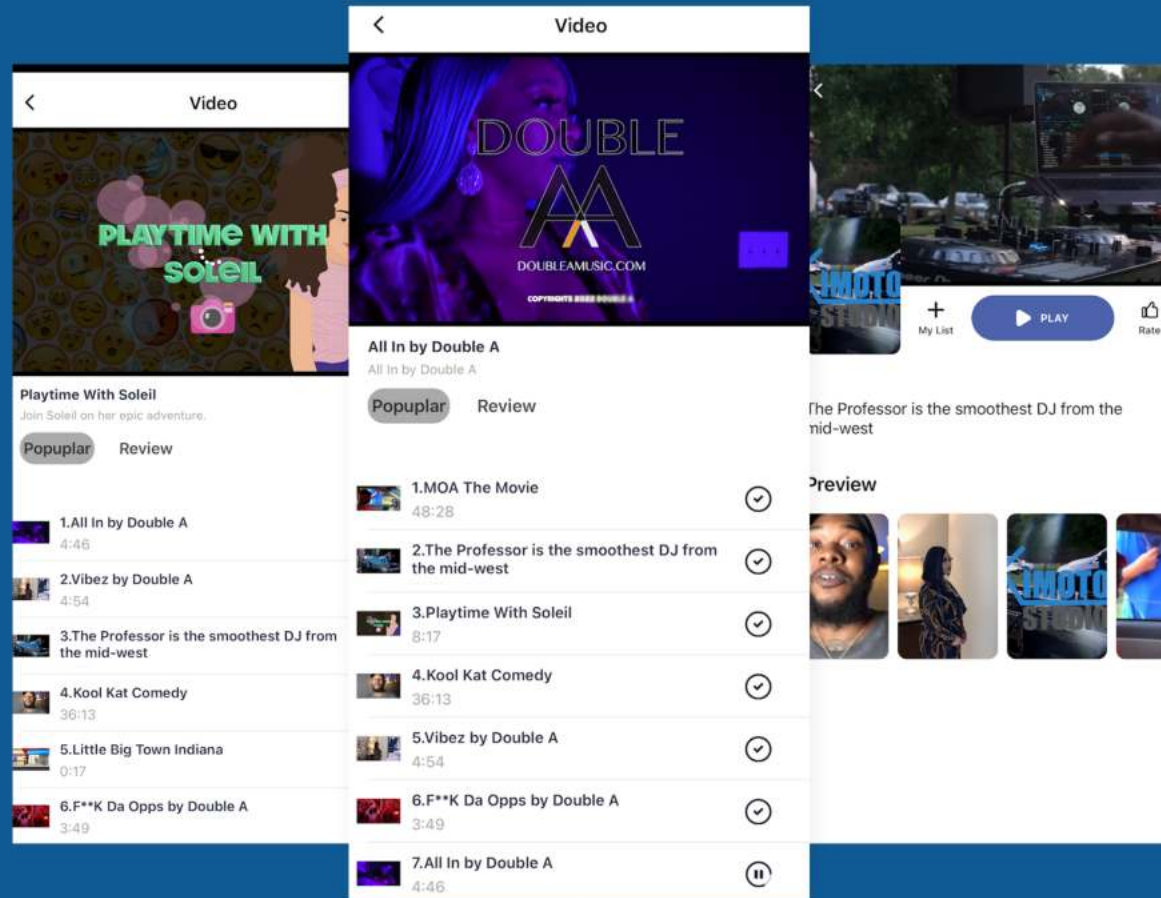

## BLOGS

- This section allows users to read blogs on wide-ranging topics published by the admin. For the engagement purpose, features of liking and commenting on each blog have been provided to users.

## RESULT

As Dr. Robert Sullivan's popularity continuously increasing, the website, re-designed by WebMobril Technologies, gives a more lively and interactive touch to the entire great work done by him. The website traffic has significantly increased, and users are able to access the resources easily after the revamp job is done successfully.

# Kimoto Studios App

Kimoto Studios brings great entertainment for users by offering amazing videos on mobile. The vision is to provide wonderful visuals that inspire and innovate the world. At Kimoto Studios, every visual is driven with passion, creativity and style to deliver pristine work of art. Find everything from animation, short films, and educational videos to live concerts on Kimoto Studios mobile app.

# CASE STUDY

Kimoto Studios signed WebMobril Technologies to design and develop an on-demand video streaming mobile app for both Android and iOS platforms. Our experts started from scratch to build the app with two login panels- users and admin.

We efficiently created an app that allows users to explore and play the various videos listed category-wise. The app included in-app purchases for which we successfully integrated the payment channels in the app. The admin panel has been provided to list and manage all the videos and categories.

## FEATURES THAT USERS CAN ENJOY WHILE USING KIMOTO STUDIOS

### HOMEPAGE

- Users can see the list of trending videos, categories and featured videos in the app. A search panel on the top of the homepage allow users to search any video by name.

### RECENTLY PLAYED VIDEOS

- Users can view the videos they recently played in the app. They can also play the video again or can remove it from the recently played list.

### MY PROFILE

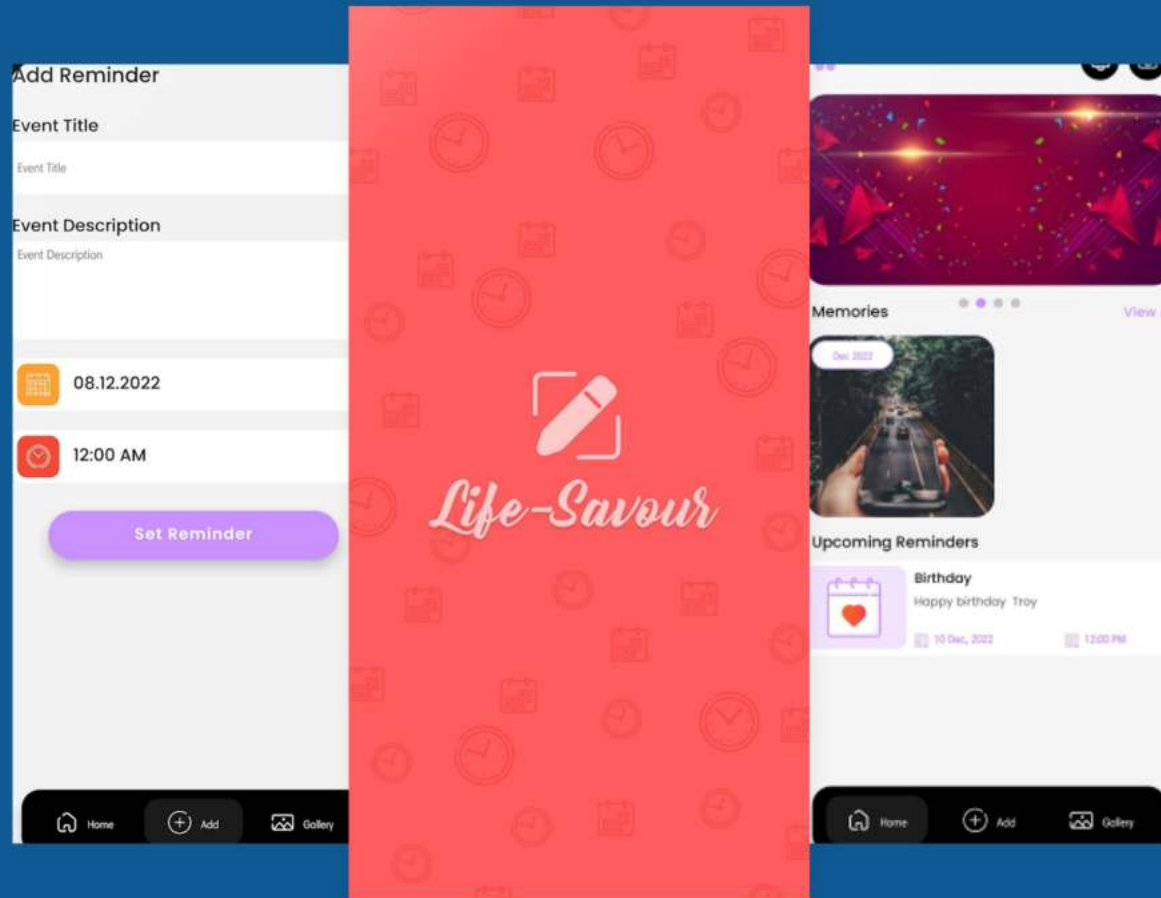

- Users can view or edit their profile in the app. This section also allows them to view their subscription package cycle or cancel the subscription when needed.

## RESULT

We successfully built this on-demand video streaming app for both Android and iOS operating systems using the best-suited framework and technology. Our developers have designed a strong backend for the app power packed with an administrative panel to manage the data at the front and the backend. Overall, the Kimoto Studios app delivers the best experience and entertainment to its users.

# Life-Savour App

Strengthen your relationships through Life Savour App. Life Savour will find favorites of all your loved ones so you can relax knowing their gift won't get in the way of a special day. Use Life Savour App to save information about your loved ones as text or photos and focus on your relationship worry-free.

# CASE STUDY

The client required a platform where users may nurture their relationships with their loved ones. The concept demanded features like reminders for upcoming life events, watching advertisements for gift suggestions and viewing past memories synced with Google photos. Our team translated the idea into a highly engaging and functional Life Savour app for both iOS and Android platforms.

## A FEW TOP FEATURES OF THE APP

### SET REMINDER

- Users can set reminders for occasions such as birthdays and anniversaries of their partners, friends and family with general information and small description.

### ADVERTISEMENTS

- Users can view banners as suggestions for gifts and what they can plan for specific occasions. Clicking an ad will redirect users to the related page or website for further processing.

### GALLERY

- The app will allow users to view their saved moments as memories by syncing the app with their Google photos. They can post or share the memories on their social media platforms.

## RESULT

With our dedicated efforts and commitment to timeliness, we delivered this app that meets the expectation of our client. From robust backend to creative UI/UX, we incorporated the latest technologies to create the Life Savour app to rule Google Play Store and Apple App Store.
